Thanks Elizabeth. I will take a shot at drafting something. I'll send it around later today.

Subject: Congressional Control re: PWG/Ramazzini/Methanol from Vitter, Broun, Inhofe, and Harris

Hi everyone,

I'm not sure which of you have already seen this, but I realized that I never circulated it formally to the group. I'm sorry I

ED_002435_00003594-00001

didn't circulate it sooner, I've just been so consumed with dioxin lately.

Attached is a control we received last week regarding the PWG/Ramazzini report from Congressmen Vitter, Broun, Inhofe, and Harris. They are requesting that we provide them:

- 1) a complete and unredacted copy of the report so they can review the PWG's findings
- 2) a summary of the weight of evidence placed on the Ramazzini Institute's work in the IRIS assessment for reference doses of methanal
- 3) an update on the status of EPA's position on whether to accept recent peer review of the non-cancer effects of methanol
- 4) a list of chemical assessments that include, or may include in the future, work performed at the Ramazzini Institute

This control has been assigned to NCEA in CMS for Paul's signature. The letter requests a response by 2/7, but according to CMS we have until COB 2/8 to upload our response.

I'm out of the office today, but I'll check in with everyone at the Roundtable tomorrow.

Sorry, again, for the delay.
